The Rich Man's Primary.

One of your esteemed correspondents (and he is an able and interesting correspondent whose papers I always read with pleasure) has suggested in the last issue of you paper that if the State of Virginia pays the expenses of the "Primary Elections" the cost would be enormous. He intimates he would favor it only for the great cost. I desire to correct this great error into which many good Democrats have fallen. The cost is comparatively small and I write after a careful calculation when I state that the cost for the entire State for each year will not exceed nine thousand dollars. Indeed it will be well under that figure. This statement can be relied on as true and correct, because with the assistance of the State officers I prepared a statement of the cost and proved that it was less than nine thousand dollars a year. In paying the primary expenses I do not include the personal expenses of the candidates but my statement includes the actual expenses of the Judges, Clerks, Messengers and other officers of the Primary election. The law which I favor will force the candidates to pay their personal expenses in the future as they have always done under all systems. Your correspondent is evidently misled by including this item. It must be remembered that generally speaking these Primary expenses come only once in two years, which will make the expenses actually less than nine thousand dollars a year. I had before me the example of the States that paid the Primary expenses. Several States made the same error that we made but they soon corrected it.

Our State is in a condition of financial prosperity unknown hither to for fifty years and more, and it is greatly due to the grand old Democratic party. Our gross revenue will exceed four millions of dollars a year, and our surplus will exceed half a million dollars, making the primary expenses of $9,000 a year a mere bagatelle. The object of the present Primary was to exclude all possible competitors so as to retain the offices in the ring which now holds them. It is death and destruction to the hope and ambition of the poor man and was so intended. It was passed over the wishes of a vast majority of the Legislature. The chief actors were two Senators, namely Senators Barksdale and Tavenner. They got the floor on the last day of the session of the Legislature in spite of all that we could do and consumed the entire time in speaking. Our bill could have easily been passed the Senate if we could have ever reached a vote. A plan must have been made beforehand and carefully considered. I do not know and never knew who planned it, though I have my well settled belief about it and it is not the first time those people have smothered the opinion of a majority of the Virginia Democrats. There is a power behind the throne in Virginia which maps out the legislative work before the legislature meets. They were defeated at the last session of the Virginia Senate but it is the first time they have been beat in twenty-five years. I make no specific charge against any man; if I had the evidence I would not hesitate one moment to do it. I admit and I want it known that I am a "kicker," but I am a kicker inside of the Democratic ranks.

The Primary principle is not only right but it is the only possible way by which the true choice of the people can be reached, and the only change needed in the present Primary is to have the election expenses paid by the State so as to give the poor man a "square deal and a living chance." If this is done the whole course of legislation in Virginia will be changed because the Reform Democracy of Virginia will protect the rights of the people and will insure a revival of the old Democratic principles of taxation in office. The Republican party in Virginia has no strength except in the 9th District and it ought not to have, because for more than thirty years it has been the active friend of "centralization" and of corporate power and corporate Wealth. So far has this gone that even now today, they are willing to sacrifice Theodore Roosevelt, the greatest President they have ever had, simply because he has done his duty by having the laws of the land enforced against the aggressive growth of wealthy and lawless corporations who are trampling under their feet, the sacred rights of the American people.

The Republican party has succeeded and is attempting to uphold the recent monstrous usurpation of power by the Federal Judges, which if continued will sweep away the last vestage of States Rights and in this high handed effort they are receiving the active support of so called Democratic railroad lawyers. I think God that the good people of the land have commenced a beneficent revolution. The year 1908 will witness the greatest uprising in American history. It will culminate in defeating William Jennings Bryan in the Presidential race who will be the first Democratic President since the days of James Buchanan and under his administration this country will commence upon a career of prosperity unparalled in the past.

A Mineral Water that Defies Drugs

NATURE'S GREAT BLOOD TONIC

The recent drug exposures in this Country have proven to all that deadly poisons and stimulants lurk in many Patent Medicines. You never know when you might be taking some of that class.

Nature has made ample provision for restoring vigor and vitality to humanity, and the public, as well as doctors, resort to Natural Remedies, when all others have failed.

Are you troubled with **Dyspepsia, Nervousness, Malaria, Kidney or Bladder Trouble, Chronic Diarrhoea or Dysentery**, and above all dreadful disease **Scrofula**, which has almost baffled human skill, or **Diseases peculiar to Females?**

Piedmont-Bedford Concentrated Iron & Alum Water

Is Nature's Remedy for Nature's Ills. Yes, when you consider that disease comes from impoverished or run down conditions of the system, this Natural Mineral Water furnishes the system what it needs.

The analysis of this Water, shown on the bottle, tells you what **Nature thinks you should take when sick**, and the doctor who reads it will agree.

Do you think the grouping together in this Water of 17 different minerals, which are recognized by medical writers as **most powerful blood tonics,** could have been accidental? Reason answers, NO!

An 18-oz bottle of Piedmont-Bedford Concentrated Iron and Alum water contains all the minerals of 25 gallons of the average natural water—Then **why buy a barrel of water when you can get a bottle of minerals at the trivial cost of one dollar.** The dose is a teaspoonful in a glass of your own spring water.

How this Water acts upon the system is not clearly known. It is judged mainly by its works. It has cured all the diseases numerized above, and many more, evidently through its action as a powerful **BLOOD TONIC.**

We have many valuable certificates, which we will send free to anyone you are interested.

Get from any prescription pharmacist the following:

Fluid Extract Dandelion, one half ounce; Compound Kargon, one ounce; Compound Syrup Sarsparilla three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bed time.

The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the illiminative tissues of the Kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes rheumatism.

Some persons who suffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it

A druggist here at home when asked stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

A cocktail by any other name will be much more welcome to Mr. Fairbanks and officeseekers hereafter.
